What was the Little Ice Age and what changes did it bring to Europe?

- **Began**: End of 13th century
- **Small drop in overall temp**: shortened growing seasons and disastrous weather conditions
- **1315-1317**: Heavy rains in northern Europe destroyed harvests and caused serious food shortages—extreme hunger and starvation

The Famine of 1315-1317

- By 1300 Europeans were farming almost all the land they could cultivate.
- A population crisis developed.

Death Triumphant!:
A Major Artistic Theme

A Little Macabre Ditty

“A sickly season,” the merchant said,
“The town I left was filled with dead,
and everywhere these queer red flies
crawled upon the corpses’ eyes,
eating them away.”

“Fair make you sick,” the merchant said,
“They crawled upon the wine and bread.
Pale priests with oil and books,
bulging eyes and crazy looks,
dropping like the flies.”

A Little Macabre Ditty (2)

“I had to laugh,” the merchant said,
“The doctors purged, and dosed, and bled;
“And proved through solemn disputation
“The cause lay in some constellation.
“Then they began to die.”

“First they sneezed,” the merchant said,
“And then they turned the brightest red,
Begged for water, then fell back.
With bulging eyes and face turned black,
they waited for the flies.”

A Little Macabre Ditty (3)

“I came away,” the merchant said,
“You can’t do business with the dead.
“So I’ve come here to ply my trade.
“You’ll find this to be a fine brocade…”

And then he sneezed..........!
The Mortality Rate

25,000,000 dead !!!
